

The Setting

The San Juan Mountains of Colorado have earned their reputation as the Rockies' most spectacular mountain range. The Telluride Conference Center, a state of the art facility opened in 1999, offers new technology with old fashioned hospitality in a sophisticated mountain style.

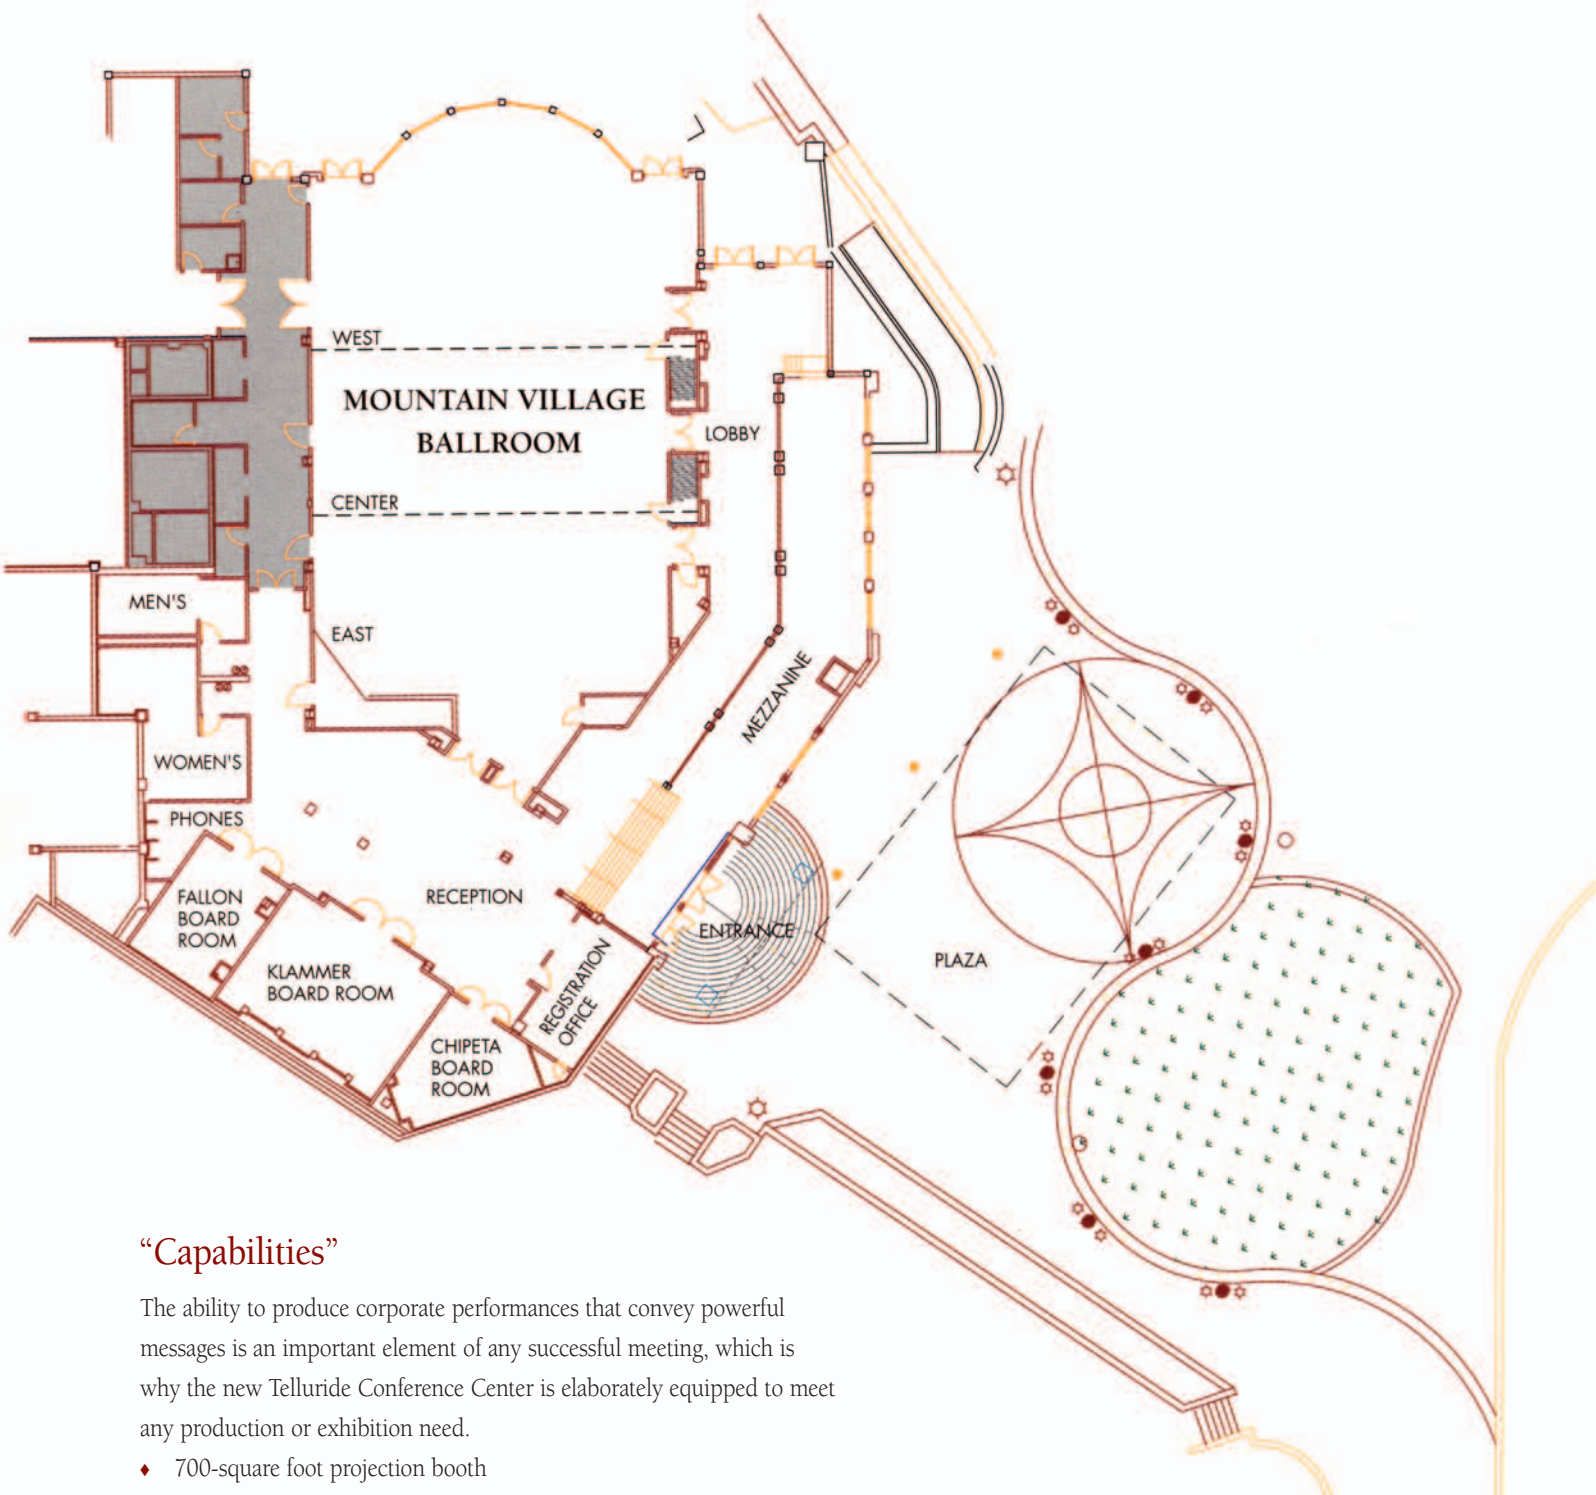

The Telluride Conference Center is slope-side in Mountain Village, which links to the town of Telluride via the free scenic gondola - the only public transportation system of its kind in the country. The free 13 minute aerial journey completes a village experience fashioned after the resorts of the European Alps. Everything is at your fingertips in these pedestrian-friendly towns, from beautifully appointed lodges, hotels, condominiums to inviting restaurants, unique shops and limitless recreation. Steps from the Conference Center are luxury ski-in/ski-out and golf-in/golf-out accommodations with world class spas.
