BE INSPIRED AT A ONE-OF-A-KIND GATHERING ONLY IN TELLURIDE

Winter 2004, Telluride, Colo. – The beautiful San Juan Mountains surrounding Telluride and Mountain Village present an inspiring setting for gatherings of all kinds in all seasons. The two towns, adjoined by a free gondola, have long lured businesses and families alike for meetings, retreats, family reunions and weddings.

With one-of-a-kind facilities to boast, Telluride offers everything from state-of-the-art technology for business meetings to personalized events, and wedding planning services.

Currently, Telluride and Mountain Village can support more than 31,000 people a day in nearly 30 potential meeting spaces including Telluride's fabulous new high-tech conference center in Mountain Village.

Completed in 1999, the Telluride Conference Center features more than 11,000 square feet of total conference space, including 1,300 square feet of modular staging, a 700-square-foot video projection booth, Dolby surround sound, wide band-width voice and data network support for laptops, video conference capabilities, and both 35mm and 16mm film projectors. Private green rooms, video, audio and recording equipment supported by on-site staff members are in place for the ultimate in convenience.

New this year, the Telluride Conference Center has partnered with High Speed4U, a Durango Colorado-based Wi-Fi company that provides hotzones for wireless service. wireless service in the Center and around the surrounding Plazas.
